

# Participant Consent Form: Mid-Air Gesture Interaction in Cars Experiment

The aim of this experiment is to investigate what gestures are most usable in a car. This survey should take roughly 30 minutes to complete.

Firstly, the format of the survey will be explained, and the participant will be asked to sit in the backseat of the car with a laptop in front of them.

All results will be kept private and no personal information will be stored about the participant. If they choose to drop out, then all data will be discarded.

If you have any further questions about the survey, please contact:

Catriona Murphy  
School of Computing Science  
[2312695m@student.gla.ac.uk](mailto:2312695m@student.gla.ac.uk)

I have read the information sheet, and agree to voluntarily take part in this experiment.
